

## Testimonials

Your Virtual Typist did a terrific job on the project. Attention to detail was great and the turnaround time on the project exceeded my expectations. Highest recommendation.

I strongly recommend Your Virtual Typist.. Very fast and accurate. Minimal clean-up on our end for the resulting text. Will be using this provider for a long time to come.

Regina is one of those rare transcriptionists who really cares about her work. I have found her to be not only excellent in her transcription but 100% into customer/client satisfaction. When I send a file to Regina, I have no doubt that it will be handled in the most efficient and precise manner. I can always depend on Regina which is something I truly cherish.~

The Virtual Typist is a fabulous provider of typing services. We had an interview to transcribe, and it was done on time, and with great customer service. \* The interview had some scientific terms in it, which the provider handled well. \* Upon our request, the provider took out the "you know's". \* The provider heard some mumblings that we even couldn't hear when listening (mainly some questions were a little mumbled). \* The format looked great. \* Just very thorough.~ S.
